10 December.
The postie is up to his eyeballs in Christmas mail so cards are taking a bit longer to arrive at their destination.

Forget about snow and reindeers ...

Christmas in Australia is Summertime!
It's hot! Head for the beach with prawns on the barbecue; experience the vivid colours of the outback; play cricket under the Hill's Hoist, watch the warm sunset in the tropics and the enjoy the cool aquamarines of the Great Barrier Reef.
We've created unique Australian Christmas cards showing the reality of Christmas in Australia. The

bright colours of the seaside, outback, rainforests, reef and icons that make us proud to live in this amazing land 'down-under'.

We are illustrators/graphic designers working from a home studio beside the Coral Sea — wooden louvres open onto a lush tropical garden where parrots squabble under the shade of palm fronds and rainbow bee-eaters swoop into the transparent spaces between house and foliage.

As each year comes to an end our cards travel around the world. Often to places where the harsh winter has bleached the colours from the landscape. Envelopes delivered, full of bright colours — exotic animals, red outback soil, lush rainforests, hot beaches, cool oceans.

Warm wishes from another world — Australia.

19 unique cards - delivery free*.

*Delivery charge may apply outside Australia - [contact us](#)

Cards cost just \$3.00 each including postage* and envelopes.

No generic Christmas message inside, just a blank — allowing you to be creative with a low-tech biro.

Rectangular cards are 180mm x 125mm (folded).

Payment by credit card or PayPal on a secure server.

Barring wars, revolutions or natural disasters your cards will be sent with TLC on the day after your payment.
